SECTION 1-1 **Definitions**

Single-Family Residential - Any single-family structure designed for occupancy as a residence whether by owner or by a renter or lessee, including any single-family residence, mobile home, townhouse, or other structure generally considered to be used solely for residential purposes by not more than one family and which is separately metered.

Light Commercial - Any structure generating not more than four (4) ninety-six (96) gallon carts per Unit of commercial refuse or solid waste.

These minimum bill charges shall be applied at the 5/8" monthly minimum bill charge rates per Unit. The commodity charge for water and wastewater shall be in addition to the monthly minimum bill charge per Unit. As the existing water rate structure is tiered, water commodity charges shall be calculated by dividing the number of Units into the total water usage for the facility and then applying the water commodity rates on a per Unit basis.

Transient Residential - RV parks, hotels and motels. The water and sewer rates for transient

residential shall be on the same basis the District uses to determine the rates for other commercial businesses.
